## Web Developer

web.omarfuruk.dev@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#) | +880 1917540405 (WhatsApp)

Sylhet Division, Bangladesh.

## Career Objective

---

As a web developer, I focus on creating dynamic and interactive user interfaces to ensure a seamless and responsive user experience. I am currently developing a full-featured website using the MERN stack (MongoDB, Express.js, React, Node.js) to modernize and enhance user experience with a friendly, efficient, and contemporary design.

## Skills

---

- **Technical Skill:** HTML5, CSS3, Tailwind CSS, MongoDB, Mongoose, node.js, React.js, JavaScript(ES6+), Firebase, Express, TanStack Query, Git, GitHub, Next.js, TypeScript, Strip, SSLCommerz
- **Soft skills:** Teamwork, Leadership, Critical Analysis.

## Projects

---

**MediCare** is Multi-Vendor Medicine Selling E-commerce Website.

[Live Link](#) | [GitHub Client](#) | [GitHub Server](#)

- **Features:** i) View total sales revenue, paid and pending payments in a comprehensive dashboard. ii) Detailed analytics and sales reports for better business insights.
- **Problem Solves:** Medicines streamline the buying and selling process in the healthcare market.
- **Technologies Used:** This website is build using MongoDB, Express, Node.js, React, Firebase, Stripe payment method, TanStack Query, Axios and other components libraries.

**ProperIT** is query based website.

[Live Link](#) | [GitHub Client](#) | [GitHub Server](#)

- **Features:** i) If a user adds a query to the website, it will be displayed in front of all other users in real-time. ii) As a result, users can recommend based on any query without any difficulty.
- **Problem Solves:** You can easily get information about the product through various inquiries.
- **Technologies Used:** This website is built using MongoDB, Express, Node.js, React, Firebase, and other component libraries.

**Foot-Finesse:** An E-commerce Website for Selling Products, Developed as a Group Project.

[Live Link](#) | [GitHub Link](#)

- **Features:** i) This website is built through teamwork. ii) It serves as an excellent platform to present products and showcase talent online. iii) Other team members enhanced the project with expertise in UI/UX design, back-end development, and optimization.
- **My Contributions:** I worked on sections such as About, Our Team, Compare, Reviews, Ads, Newsletter, Footer, etc.
- **Technologies Used:** The project utilizes various Next.js component libraries, TypeScript, Express, MongoDB, a custom Login/Register system, and Tailwind CSS to create a visually appealing and functional website.

## Education

---

BSc in Mathematics (3<sup>rd</sup> Year)

[Sunamganj Gov't College, Sunamganj](#) ( 2020 to Presents).

Affiliated with [National University](#), Bangladesh.

## Certifications and Courses

---

**Course Name:** [Complete Web Development](#).

Certification on JavaScript, HTML, CSS, React and applied these skills to build several projects and Course Duration of December 2023 to July 2024. Provided by [Programming Hero](#)

## Extra-Curricular Activity

---

Member of “**BADON**” Blood Donation Association at [Sunamganj Government College](#).

Member of the “**Science Club**” the Integrated Digital Service Delivery Platform ([IDSDP](#)).
